Ten Streets is a bold vision for a new urban neighbourhood on the Northern edge of Liverpool City Centre.

It's a vision based on Ten Big Ideas – a set of guiding principles and initial ideas that will define a place with a distinctive urban character and purpose.

We want your ideas, your help and your creative energy.

An engine for Growth

Ten Streets will be an engine for economic growth and renewal. We are designing a new home for tech entrepreneurs, digital businesses and the connected economy.

A Cultural stage

The Northshore area has already become an established events destination thanks to the trailblazing work of Kazimier and Sound City. We'll add a new dimension to the Ten Streets offer with a stunning new performance venue, The Hanger Theatre – a unique performance space providing audiences with genuinely immersive experience and an international quality theatre and musical programme.

Squares, public spaces and pocket parks will be an essential part of Ten Streets' creative alchemy – places to gather, relax and imagine, places for ideas to germinate and coalesce and where chance encounters spark new creative collaborations.

A Creative catalyst

Cities are changing with new patterns of commerce and creativity taking root in unexpected places and former industrial districts. It's vital that Ten Streets remains fertile, accommodating and permissive – making space for every kind and scale of creative innovator.

A Collaborative approach

Ten Streets is a different kind of regeneration project. We are not imposing an identity or blueprint, but are working collaboratively with partners to discover and nurture an identity that is already emerging and fulfills the potential of the area's extraordinary assets.
